Its treats of the pleasures of love. The first influence of love is exerted on the mind, gradually as it deepens and becomes more and more ethereal, it takes entire possession of the heart. | 7985 |

About the end of the last century, a class of poets called Kabis, were very popular. By him they are corrected a second time and brought back in three days when the writers come for them. The writer is beside the corrector he requires to write fewer corrections. The professor then asks the student, whose exercise has been corrected, how many mistakes he has made. He then goes over the exercise with the professor if the corrector has failed to make a correction or has corrected wrongly. Students then take their exercises home as the professor has corrected his exercise, bringing them back in a week. The professor then goes over the exercise with the writer. | 1915 |
